

ITT Technical Institute
BU323
Money and Banking
Onsite Course

SYLLABUS

Credit hours: 4

Contact/Instructional hours: 40 (40 Theory Hours)

Prerequisite(s) and/or Corequisite(s):

Prerequisites: GE274 Macroeconomics or equivalent, BU112 Accounting II, BU121 Introduction to Business in a Global Society

Course Description:

This course introduces basic concepts and principles relating to money and banking, financial institutions and monetary policy, and how these concepts relate to economic activity and the activities of the Federal Reserve, U.S. Treasury and international economy.

Syllabus: Money and Banking

Instructor:	_____
Office hours:	_____
Class hours:	_____

Major Instructional Areas

1. Relationship between economic variables and the money supply
2. Financial systems and their interaction with businesses
3. Banking and financial instruments and governmental regulations
4. International considerations in monetary exchange
5. The Federal Reserve and monetary policy

Course Objectives

1. Analyze the significance of the banking industry, its structure, and its various roles.
2. Evaluate the impact that changes in the global economy have on the financial markets.
3. Analyze the impact of technology on banks and other financial institutions.
4. Differentiate between levels of risk and methods to mitigate risk in foreign investments.
5. Evaluate the role of the central bank in the economy and in regulation of financial services.
6. Analyze the effects of changing interest rates on the economy and business investment.
7. Analyze how recent changes in the banking and financial services industry have affected businesses and consumers by researching four to six articles from scholarly journals and periodicals.

SCANS Objectives

SCANS is an acronym for Secretary's Commission on Achieving Necessary Skills. The committee, created by the National Secretary of Labor in the early 1990s, created a list of skills and competencies that the committee feels are necessary for employees to function in a high-tech job market.

1. Effectively identify, evaluate, organize, maintain, and interpret data and information to maximize economic efficiency.
2. Analyze the overall intent of applying technology and interpret the desired results.
3. Apply existing and new knowledge to understand the recent changes in the banking industry.
4. Use computers, the Internet, or the ITT Tech Virtual Library to process, organize, and analyze information.
5. Effectively present ideas or data using oral, written, or graphical methods.
