

CJ263P

Emergency Procedures

[Onsite]

Course Description:

The purpose of this course is to present techniques and principles on which law enforcement and security professionals rely in times of crisis. The course focuses on the principles of disaster management strategies, structure and response.

Prerequisite(s) and/or Corequisite(s):

Prerequisites: CJ131P Introduction to Criminal Justice

Credit hours: 4

Contact hours: 66 (56 Theory Hours, 10 Lab Hours)

SYLLABUS: Emergency Procedures

Instructor: _____

Office hours: _____

Class hours: _____

MAJOR INSTRUCTIONAL AREAS

1. History and Purpose of Law Enforcement Incident Command System (LEICS)
2. Emergency, Crisis, and Incidents Planning
3. Emergency, Crisis, and Incidents Responding
4. Emergency, Crisis, and Incidents Recovering
5. Taskforce and Emergency, Crisis, and Incidents Management
6. Impact and use of Technology in Emergency Response and Procedures

COURSE OBJECTIVES

After successful completion of this course, the student will have the opportunity to:

1. Examine the history and importance of Incident Command System (ICS).
2. Examine the components of planning for terrorism / tactical violence.
3. Describe the procedures in responding to terrorism / tactical incidents.
4. Identify the importance of community preparedness for a chemical attack.
5. Identify the agents used in biological terrorism.
6. Examine the types and hazards of radiation.

7. Examine the significance of explosives devices in terrorism.
8. Examine the process of mass decontamination.
9. Examine the importance of physical evidence at a crime scene.
10. Examine the use of monitoring and detection equipment.
11. Analyze the levels and types of Personal Protective Equipment (PPE).
12. Using the Internet or ITT Tech Virtual Library, research the effects of incidents and assess the impact of technology and the Internet on community recovery.

Related SCANS Objectives

1. Locate, understand, and interpret written information in documents such as manuals, graphs, and schedules.
2. Analyze and interpret data to identify the components of planning for terrorism / tactical violence and the agents used in biological terrorism.
3. Identify and acquire relevant information from existing sources to describe the procedures in responding to terrorism / tactical violence.
4. Apply a critical thinking process to identify the importance of community preparedness for a chemical attack.
5. Acquires, evaluates, organizes, maintains, interprets, and communicates information.
6. Use critical thinking to analyze the levels and types of Personal Protective Equipment (PPE).
7. Uses computers to research the Internet or ITT Tech Virtual Library about the effects of incidents and assess the impact of technology and the Internet on community recovery.

TEACHING STRATEGIES

The curriculum is designed to promote a variety of teaching strategies that support the outcomes described in the course objectives and that foster higher cognitive skills. Delivery makes use of various media and delivery tools in the classroom.

COURSE RESOURCES

Student Textbook Package

- *Emergency Procedures.* Boston, MA: Pearson Custom Publishing, 2006. (Taken from Paul M. Maniscalco and Hank T. Christen. *Understanding Terrorism and Managing the Consequences.* Upper Saddle River, NJ: Prentice Hall, 2002. and Hank T. Christen and Paul M. Maniscalco. *Mass Casualty and High-Impact Incidents: An Operations Guide.* Upper Saddle River, NJ: Prentice Hall. 2002).

EVALUATION & GRADING

COURSE REQUIREMENTS

1. Attendance and Participation

Regular attendance and participation are essential for satisfactory progress in this course.

2. Completed Assignments

Each student is responsible for completing all assignments on time.

3. Team Participation (if applicable)

Each student is responsible for participating in team assignments and for completing the delegated task. Each team member must honestly evaluate the contributions by all members of their respective teams.

Evaluation Criteria Table

The final grade will be based on the following weighted categories:

CATEGORY	WEIGHT
Class Participation	10%
Writing Assignments	15%
Project Phase 1	10%
Project Phase 2	10%
Project Phase 3	15%
Project Phase 4	15%
Final Project	25%
Total	100%

Grade Conversion Table

Final grades will be calculated from the percentages earned in class as follows:

A	90 - 100%	4.0
B+	85 - 89%	3.5
B	80 - 84%	3.0
C+	75 - 79%	2.5
C	70 - 74%	2.0
D+	65 - 69%	1.5
D	60 - 64%	1.0
F	<60%	0.0

COURSE OUTLINE

Unit		Lesson Title	Reading (Pages from the Textbook)	Activity Type		
				Writing Assignment	Discussion	Project
1		The Basics of the Incident Management System	Chapter 2, Pages 25-41 <i>Emergency Procedures</i> Chapter 9, Pages 157-172 <i>Emergency Procedures</i>		Unit 1-Assignment 1	
2		Terrorism/Tactical Violence	Chapters 3 and 4,	Unit 2-Assignment 2	Unit 2-Assignment 1	Unit 2-Phase 1

Note

Instructors should be prepared to locate alternative readings in the unlikely event the Web sites listed under reading are not accessible. Information on these topics can be found by searching through the United States Department of Homeland Security homepage, located at www.dhs.gov

Instructors should feel free to print out copies of materials from federal government Web sites.

INTENT/INTERFACE

The purpose of this course is to present techniques and principles on which law enforcement and security professionals rely in times of crisis. The course focuses on the principles of disaster management strategies, structure, and response. This course outlines the history and purpose of the Law Enforcement Incident Command System (LEICS) and examines the concepts and applications of planning, responding, and recovering in crisis, disasters, and emergency situations caused naturally, accidentally, or carried out deliberately by mal doers.

This course builds on the basics of the American criminal justice system and law enforcement learned in Introduction to Criminal Justice.
